MONTASH

ASSOCIATES

“There are 3 things I look for in a search partner; speed, quality and price. Montash Associates consistently deliver against these criteria for my global needs, which is why they are our partner of choice.”

Filip Vanderheyden, Global Talent Manager, British American Tobacco

Montash Associates is an award winning, international search and selection consultancy specialising in the acquisition of high-performance talent across a number of core industries.

Partnering World-Class Enterprises

Our mission is to deliver you the resources your enterprise needs to fulfill its potential. We will be relentless in our search for top-tier talent on your behalf.

A methodology that has proved itself time and again combined with a passion and drive that will not falter. We will identify and acquire the best individuals within the necessary timeframes and budgets.

All enterprises face the challenge of driving down cost through efficiency or increasing output through performance. We can provide you access to talent that will return tangible business benefits.

This is about bottom line and as your partner we understand that. We work with organisations that have a serious need for talent locally, regionally or internationally.

You will benefit from years of experience we have in supporting the change, transformation and growth of the world's most successful firms.

Formed in 2004 by award winning recruiter Andrew Larholt, Montash Associates has enjoyed double digit growth year on year. Andrew has brought together a team of extremely talented individuals that share his passion for excellence.

When you engage with us you will be communicating with a highly trained consultant. They will be an expert in their field not a generalist. You will find we are extensively networked and extremely well informed, making us the ideal partner in your search.

Core Values

Ever conscious that we operate in a highly competitive yet largely unregulated marketplace we have agreed a set of Core Values which are strictly observed.

- Responsive, Reliable and Flexible approach to our clients and candidates
